

OFFICE OF THE SUPERINTENDENT

September 7, 2011

Dear Parents/Guardians:

If your child has an allergy or medical condition that you feel his/her bus driver should be made aware of, please take a few minutes to write the driver a note specific to your child's needs. Included in this correspondence should be the special concern you have for your child and any measures to be taken should it become an issue. Also, please inform the school nurse of any measures to be taken during your child's school day.

Parents are also reminded of the importance of physical exams for their children at each developmental stage: at early childhood (pre-K to 3rd), pre-adolescence (4th to 6th) and adolescence (7th to 12th).

Student medical (physical) exams shall be conducted by students' *own* physician in *his/her office* and a FULL report sent to the school. If your physician does not have a form, please call your Health Office to request a school form or you can download a form for each school from the school website at www.byramschools.org.

Sincerely,

Gayle Strauss, Ph.D.
Superintendent
